ACTION

MEMORANDUM FOR RICHARD V. ALLEN

FROM: WILLIAM L. STEARMAN *WLS*  
SUBJECT: Withdrawal of U.S. Support for the IIASA

At Tab A is an advance copy of the final intelligence report on Soviet exploitation of the International Institute for Applied Systems Analysis (IIASA) at Laxenburg (near Vienna). This report provides more than enough evidence to justify withdrawing US support (now about \$3 million a year) from this Institute. At Tab I is a memo from you to Al Haig requesting State's recommendations on how best to effect an orderly US disengagement from the IIASA.

The IIASA charter requires a one year notice of intent to withdraw. We must formally announce our intention by this December or be stuck for another year. I suggested a November 1 deadline for all recommendations.

RECOMMENDATION

That you sign the memorandum to Secretary Haig at Tab I.
